vishnubhadri@hotmail.com

SUMMARY

- Experienced software Engineer with over **5+ years** of expertise in **Front-End** and **Back-End** Development.
- Recognized with the “**Gem of the month**” twice for implementing a comprehensive, **document-level view** with AG-Grid Integration and innovative implementation in the **back-end** that resulted in a **reduction of DB load by up to 30%**.
- Skilled in modern programming languages such as **JavaScript**, **Node.js**, **TypeScript**, and **Java**, and proficient in popular frameworks like **Express.js**, **Vue.js** and **Angular**.
- Experienced with **technologies** like **HTML**, **CSS**, and **SCSS** and have experience in **AWS Services** (S3, SQS) **Micro Front-End Architecture**, **Data Structures**, and **Design Patterns** and tools like **Git**, **JIRA**, **Datadog**, **Kibana** and **Postman**.
- Proficient in modern databases such as **MySQL** and **MongoDB**, and familiar with cutting-edge technologies like **WebSocket**, **HTTP (REST and GraphQL)**, **Web components**, and **Module Federation**

SKILLS

Front-End Technology

- | | |
|-----------------|---------------------|
| • HTML5 | • Micro Front-End |
| • CSS, and SCSS | • Module federation |
| • JavaScript | • Vue 2 |
| • jQuery | • Web Components |
| • Lodash | • Typescript |
| • Angular (V8) | • Webpack |

Back-End Technology

- AWS (S3, SNS, and SQS)
- Java 8 (Core and Advanced)
- Node.js
- WebSocket (Socket.io)
- J2EE
- MongoDB
- RDBMS (SQL Server, MySQL)
- Express.js
- Java Servlet
- APIs (REST, GraphQL)

Concepts

- Data Structures
- Design Patterns
- Docker
- Distributed System
- Test-Driven Development
- SDLC (Agile)
- Jenkins
- Scaling Concepts
- Multithreading
- OOPS Concepts
- Unit-Testing
- WebSocket

Software

- Tools: Bugzilla, Git, JIRA, Postman, Kibana, Datadog.
- Web Servers: Apache, Apache Tomcat, Express.js, Node.js.

Soft Skills

- Adaptability
- Attention to detail
- Communication
- Flexibility
- Mentoring
- Problem-solving
- Performance Improvement
- Teamwork
- Technical Leadership
- Time Management
- Willingness to learn
- Work ethic

EXPERIENCE

Associate Consultant,
Intellect Design Arena, Chennai.

04/2021 – Present

Projects:

- **IDXP-UI-LIBRARY:** Developed a centralized **UI component library** that allowed developers to reuse components, styles, and features to build screens 40% faster. Focused on **easy integration** through an **NPM package** and **single-point updates** across multiple applications.
 - **Magic Platform:** Worked as a **Front-End developer** using the **Vue framework** to design complex, reusable components and libraries with micro front-end architecture for an AI-based platform hosting a library of pre-trained AI models.
 - **Magic Submission:** Developed a **Vue.js** application using **JavaScript**, **Socket.IO**, and **MongoDB**, with **Micro Front-End Architecture** for an AI product that extracts and displays content from various sources, enriches data, and indicates risk information. Worked as the primary **Node.js** resource.
-

Achievements in Intellect Design Arena:

- Implemented a Notification module using **WebSocket**, resulting in a 30% reduction in DB load and instant updates in the UI. Awarded "**GEM of the Month**".
- implementing a comprehensive, **document-level view** with AG-Grid Integration for optimize UI performance. Awarded "**GEM of the Month**".
- Designed and developed a **Centralized UI component library** that helped developers build new screens **40% faster**.
- Actively **Mentored**, **Coached**, and **Guided project** teams in implementing new features.
- Created a **No-code** solution for complex modules, allowing users to easily create and modify screen components.
- Re-architected the UI from a monolithic to a **Micro Front-end Architecture**.
- Introduced, rebuilt, and engineered products using Micro Front-End for lightweight, **Cross-Framework**, and **Fast Loading** as a part of **Performance Improvement**.

- Migrated the UI from **Kubernetes to S3** for cost-efficiency, high availability, and faster deployment.
- Implemented **REST** and **GraphQL** APIs to query complex data from a single response and reduce the number of API calls.
- Adopted **Test-Driven Development** and transitioned from manual to **Automated Unit Testing** to improve product quality.
- Worked with **Agile Methodologies** and tools such as **Jira** and **Confluence**.
- Developed complex, reusable screens that rendered, highlighted, and annotated images and HTML content using **Fabric.js** (canvas).
- Familiar with Vue libraries such as **Vuex**, **Vuetify**, and **Vue-Router**.

Software Engineer,

GoDB Tech Pvt Ltd, Chennai.

05/2018 – 04/2021

Projects:

- **Event Manager:** Developed an event scheduling system for managing meetings and travel arrangements for attendees. Utilized **JavaScript**, **jQuery**, and **Java Servlet** as a **Full stack developer**.
 - **TAGIC E-Marine:** Worked as a **back-end developer** using **Node.js** to develop a marine insurance platform that provides quotes, proposals, payment, policy, endorsement, and renewal services. Also guided the front-end team using **Angular** (V9).
 - **TAGIC Non-Rater:** Developed an insurance platform that provides quotes, proposals, payment, and policy services, with special features such as UW referral and UW escalation matrix. Utilized **Angular** (V9), **Node.js**, and **Java** as a **full-stack developer**.
-

Achievements in GoDB:

- **Trained 2-4 new graduates** for a project and provided **Technical Mentorship** to 7 team members.
- Demonstrated strong skills as a proactive front-end developer and self-taught **back-end developer**, working with technologies such as **Angular**, **TypeScript**, **JavaScript**, **jQuery**, **Java Servlet**, **J2EE**, and **Node.js**.
- Developed complex applications using **Design Patterns** and applied **Monolithic** and **Microservice Architectures**.

- Built Event management and Marine insurance systems.
- **Collaborated with Testing Team, Business Analyst, DevOps team, and Clients** to resolve development complexity and deliver high-quality products.
- Applied **Agile methodologies** and maintain records of work progress

EDUCATION

Sona College of Technology

Salem, Tamil Nadu

07/2015 - 04/2018

- B.E – Computer Science and Engineering (CGPA 7.2).

Thiagarajar Polytechnic College

Salem, Tamil Nadu

07/2012 - 03/2015

- Diploma in Computer Engineering (CGPA 7.7).

Bharathi Vidyalaya Higher Secondary School

Salem, Tamil Nadu

2012

- SSLC (70.1%).
