

Vishnuraj P.S.

Chennai, Tamil Nadu, India

vishnubhadri@hotmail.com

SUMMARY

- Experienced software Engineer with over **5+ years** of expertise in **Back-End** and **Front-End** Development, including three years as a back-end developer and two years as a front-end developer.
- Recognized with the “**Gem of the month**” twice for **innovative implementation** in the **back-end** that resulted in a **reduction of DB load by up to 30%** and implementing a comprehensive, **document-level view** with AG-Grid Integration.
- Skilled in modern programming languages such as **JavaScript**, **Java**, **Node.js**, and **TypeScript**, and proficient in popular frameworks like **Express.js**, **Vue.js** and **Angular**.
- Proficient in modern databases such as **MySQL** and **MongoDB**, and familiar with cutting-edge technologies like **WebSocket**, **HTTP (REST and GraphQL)**, **Web components**, and **Module Federation**.
- Experienced in using **AWS Services** (S3, SNS, SQS), **Micro Front-End Architecture**, **Data Structures**, **Design Patterns**, **SCSS** and modern tools like **Git**, **JIRA**, **Datadog**, **Kibana** and **Postman**.

SKILLS

Back-End Technology

- | | |
|------------------------------|-----------------------------|
| • AWS (S3, SNS, and SQS) | • MongoDB |
| • Java 8 (Core and Advanced) | • RDBMS (SQL Server, MySQL) |
| • Node.js | • Express.js |
| • WebSocket (Socket.io) | • Java Servlet |
| • J2EE | • APIs (REST, GraphQL) |

Front-End Technology

- HTML, CSS, and SCSS
- JavaScript
- jQuery
- Lodash
- Micro Front-End
- Module federation
- Vue2 and Angular (V8)
- Web Components

Concepts

- Data Structures
- Design Patterns
- Docker
- Distributed System
- Test-Driven Development
- SDLC (Agile)
- Jenkins
- Scaling Concepts
- Multithreading
- OOPS Concepts
- Unit-Testing
- WebSocket

Software

- Tools: Bugzilla, Git, JIRA, Postman, Kibana, Datadog.
- Web Servers: Apache, Apache Tomcat, Express.js, Node.js.

Soft Skills

- Adaptability
- Attention to detail
- Communication
- Flexibility
- Mentoring
- Problem-solving
- Performance Improvement
- Teamwork
- Technical Leadership
- Time Management
- Willingness to learn
- Work ethic

EXPERIENCE

Associate Consultant,
Intellect Design Arena, Chennai.

04/2021 – Present

Projects:

- **IDXP-UI-LIBRARY:** Developed a centralized **UI component library** that allowed developers to reuse components, styles, and features to build screens 40% faster. Focused on **easy integration** through an **NPM package** and **single-point updates** across multiple applications.
 - **Magic Platform:** Worked as a **Front-End developer** using the **Vue framework** to design complex, reusable components and libraries with micro front-end architecture for an AI-based platform hosting a library of pre-trained AI models.
 - **Magic Submission:** Developed a **Vue.js** application using **JavaScript**, **Socket.IO**, and **MongoDB**, with **Micro Front-End Architecture** for an AI product that extracts and displays content from various sources, enriches data, and indicates risk information. Worked as the primary **Node.js** resource.
-

Achievements in Intellect Design Arena:

- Implemented a Notification module using **WebSocket**, resulting in a 30% reduction in DB load and instant updates in the UI. Awarded "**GEM of the Month**".
- implementing a comprehensive, **document-level view** with AG-Grid Integration for optimize UI performance. Awarded "**GEM of the Month**".
- Designed and developed a **Centralized UI component library** that helped developers build new screens **40% faster**.
- Created a **No-code** solution for complex modules, allowing users to easily create and modify screen components.
- Re-architected the UI from a monolithic to a **Micro Front-end Architecture**.
- Introduced, rebuilt, and engineered products using Micro Front-End for lightweight, **Cross-Framework**, and **Fast Loading** as a part of **Performance Improvement**.
- Migrated the UI from **Kubernetes to S3** for cost-efficiency, high availability, and faster deployment.

- Implemented **REST** and **GraphQL** APIs to query complex data from a single response and reduce the number of API calls.
- Adopted **Test-Driven Development** and transitioned from manual to **Automated Unit Testing** to improve product quality.
- Worked with **Agile Methodologies** and tools such as **Jira** and **Confluence**.
- Developed complex, reusable screens that rendered, highlighted, and annotated images and HTML content using **Fabric.js** (canvas).

Software Engineer,

GoDB Tech Pvt Ltd, Chennai.

05/2018 – 04/2021

Projects:

- **Event Manager:** Developed an event scheduling system for managing meetings and travel arrangements for attendees. Utilized **JavaScript**, **jQuery**, and **Java Servlet** as a **Full stack developer**.
 - **TAGIC E-Marine:** Worked as a **back-end developer** using **Node.js** to develop a marine insurance platform that provides quotes, proposals, payment, policy, endorsement, and renewal services. Also guided the front-end team using **Angular** (V9).
 - **TAGIC Non-Rater:** Developed an insurance platform that provides quotes, proposals, payment, and policy services, with special features such as UW referral and UW escalation matrix. Utilized **Angular** (V9), **Node.js**, and **Java** as a **full-stack developer**.
-

Achievements in GoDB:

- **Trained 2-4 new graduates** for a project and provided **Technical Mentorship** to 7 team members.
- Demonstrated strong skills as a proactive front-end developer and self-taught **back-end developer**, working with technologies such as **Angular**, **TypeScript**, **JavaScript**, **jQuery**, **Java Servlet**, **J2EE**, and **Node.js**.
- Developed complex applications using **Design Patterns** and applied **Monolithic** and **Microservice Architectures**.
- Built Event management and Marine insurance systems.
- **Collaborated with Testing Team, Business Analyst, DevOps team, and Clients** to resolve development complexity and deliver high-quality products.

- Applied **Agile methodologies** and maintain records of work progress

EDUCATION

Sona College of Technology

Salem, Tamil Nadu

07/2015 - 04/2018

- B.E – Computer Science and Engineering (CGPA 7.2).

Thiagarajar Polytechnic College

Salem, Tamil Nadu

07/2012 - 03/2015

- Diploma in Computer Engineering (CGPA 7.7).

Bharathi Vidyalaya Higher Secondary School

Salem, Tamil Nadu

2012

- SSLC (70.1%).

DECLARATION
